Mr. Tierney opened the hearing at 1:05 p.m. and reviewed the petition with those in attendance. The petitioners were sworn in. Mr. Tierney explained that the petition was legally advertised in the News Sun on June 5, 2008 and that the affidavit was available for review if anyone was interested in reviewing the document.

Mr. Tierney stated that he had received correspondence from Comcast Cable Communications, Inc. regarding the petition. Comcast indicated that they had no facilities within the area to be vacated and that they had no objection to the vacation.

Mr. Tierney stated that he had not received any other correspondence or had any conversations with any other party concerning the petition prior to the hearing.

Petitioner's Testimony

Mr. Ted Bond Jr., representing the petitioner, stated that his clients had lived in the area close to 30 years and the right-of-way had never been used as a road over that period. His clients are currently using the right-of-way for access to their garage located south of the right-of-way. He stated that the primary purpose for his clients wanting to vacate the street is to unify their properties on both sides of the right-of-way which will make their land more attractive for a buyer if and when they sell their property in the future. For estate planning purposes, they felt that having the right-of-way bisecting their land would make the land less attractive to a buyer and more difficult to sell.

Board Comments/Questions

Member Crivello asked the petitioner to verify their property ownership as it relates to the right-of-way to be vacated. David Jones stated that they owned the land on both sides of Sherwin Avenue and another parcel located north of Grass Lake Road.

Member Meyer asked Mr. Jones if he would be willing to consolidate his lots into one parcel given that the vacation would render one of the lots (Lot 24) landlocked. He also asked Mr. Jones if he would be willing to create one entrance point for both lots if the

vacation was successful; the Division of Transportation would like to avoid a separate access onto Grass Lake Road for the northern parcel and this could be accomplished as part of the vacation process.

Mr. Jones stated that the three lots on the north side of Sherwin Avenue shown on his survey were previously vacated and consolidated into one parcel so those would not need to be consolidated. He stated that he was not opposed to the one access point or consolidating the lots south of Sherwin Avenue.

After some discussion, the Board determined that should the vacation be successful, that the north half of Sherwin Avenue should be consolidated with the property to the north owned by the petitioners, and the south half of Sherwin Avenue should be consolidated with lots 93-97 and the north half of Lot 24 as shown on his survey. This decision was based on the zoning of the property located north and south of the right-of-way. The property located north of the right-of-way is zoned Recreational Commercial (RC) and the property south of the right-of-way is zoned Residential-1 (R-1). The zoning district line bisects the Sherwin Avenue right-of-way.

It was also decided that an access easement would need to be created that would result in a common access point for the resulting two lots and that would avoid the possibility of a separate access to Grass Lake Road in the future.

Member Mosteller asked Mr. Jones if he had any intent on using the right-of-way for development. Mr. Jones indicated that he had no immediate plans to use the right-of-way but he could not speak for the future; either himself or a new owner of the property.

Member Mosteller also asked Mr. Jones if he realized a trailer was located on the right-of-way, and if he acquired the property, the trailer would be encroaching in the right-of-way. Mr. Jones said if the trailer remained on the property following the vacation, that he would notify the owner and have the trailer removed.

Member Crivello reviewed the drainage aspects associated with the petitioner's lots and the Sherwin Avenue right-of-way.

Mr. Jones said at one time, the land located east of the right-of-way was a wetland and it was filled to create the parking lot and trailer court that currently existed on the adjacent property. He stated that LCDOT put in some storm sewer along the Grass Lake Road right-of-way and Lake Street in the past and that most of the water drained west of the intersection of Lake Street and Grass Lake Road. The swale that is located on his property and in the Sherwin Avenue right-of-way was created by him to take the water from his driveway and residence and move it into the channel. Member Crivello stated that he would want the resolution to state that any development on Mr. Jones' property in the future would need to address the drainage through the area so that adjacent properties would not be negatively affected.

The Board discussed this issue and it was decided that the County Board resolution would state that the drainage swale contained in the right-of-way and the applicant's

property would remain open and that all drainage-related issues would be addressed at the time a building permit or site development permit is applied for development on the adjacent properties.

Public Statements

No member representing the public was in attendance to provide comments.

Closing Statement

Neither Mr. Bond nor Mr. Jones made a closing statement.

Announcement of Land Cost

Mr. Tierney announced that the cost to vacate the right-of-way was \$19,811.00, and the petitioner would be responsible for these charges prior to placing the item on the agenda for the County Board.

Board Discussion

The Board agreed that that clearly there was no need to preserve the right-of-way for access purposes and they were ready for a motion.

Motion

Member Crivello made a motion, which was seconded by Member Mosteller, to grant the petition to vacate Sherwin Avenue subject to the following conditions:

1. Lots 93-97 and the north half of Lot 24 shall be combined with the south half of the vacated right-of-way into one parcel. The north half of the right-of-way shall be combined with the applicant's property to the north into one parcel.
2. There shall be a shared driveway access easement created that would benefit the north and south properties for access to Lake Street.

The basis for granting the vacation is as follows:

- 1.) there is no current or future need for the right-of-way;
- 2.) the vacation would relieve the County of any liability associated with the alley;
- 3.) the vacation would place the property on the tax rolls.

Action

The motion passed unanimously.

Adjournment

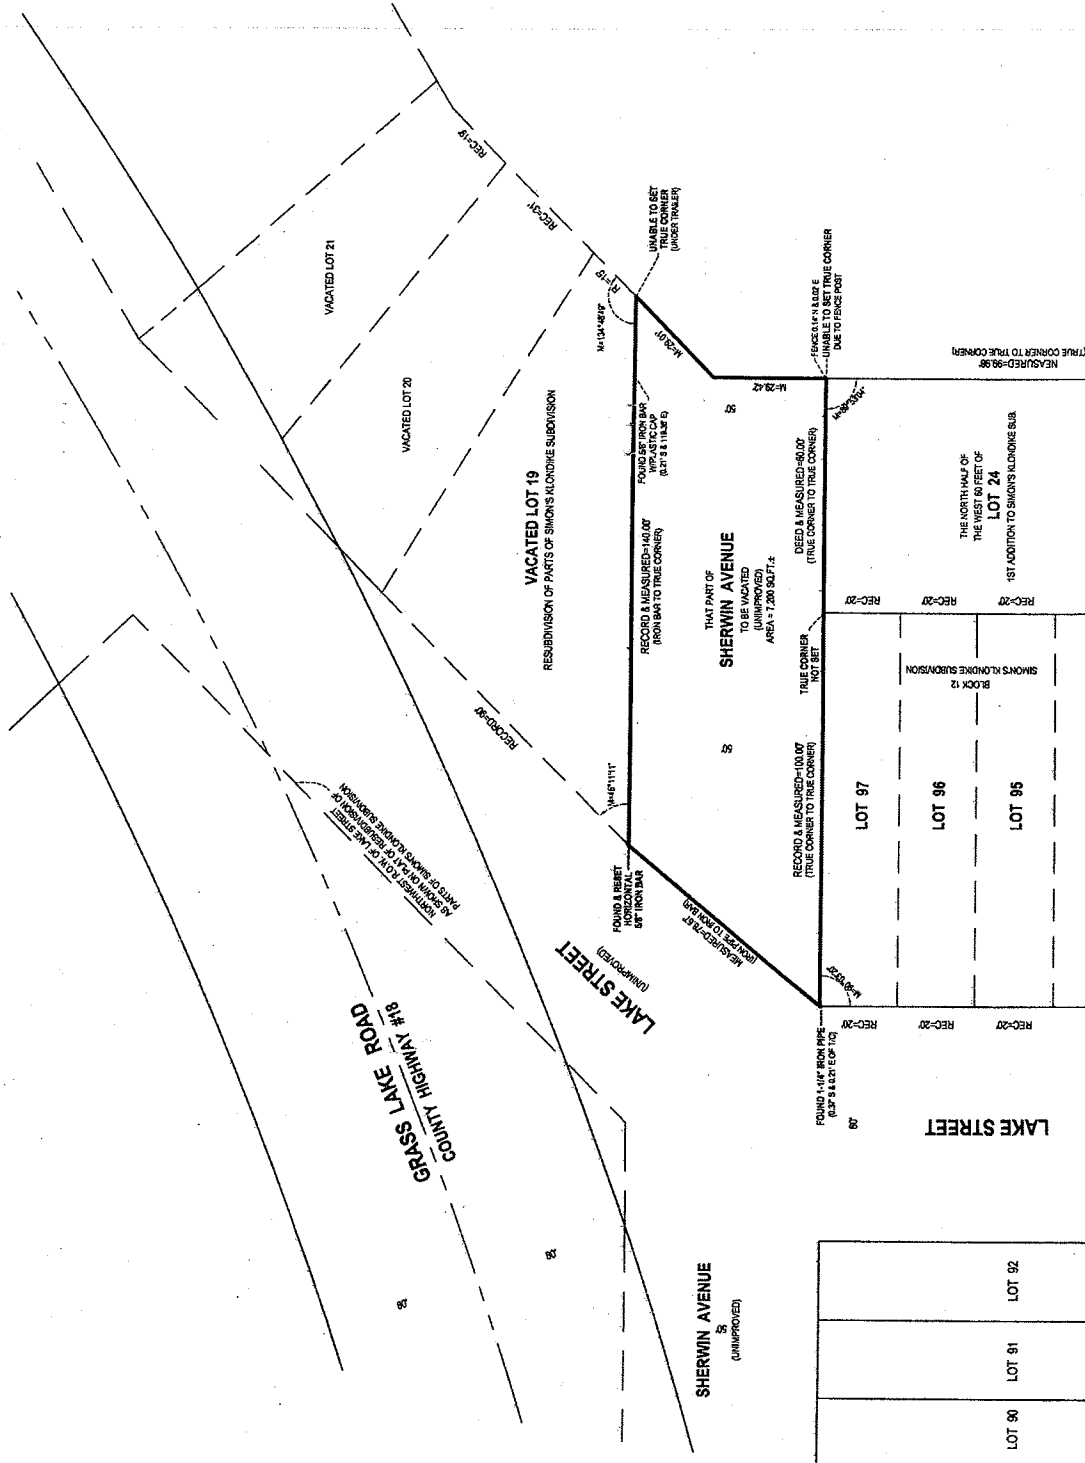

Member Crivello moved to adjourn the meeting. This motion was seconded by member Mosteller and passed unanimously. The meeting was adjourned at 1:55 p.m.
